KANGAROO ISLAND DISASTER MITIGATION PROJECT

Council is undertaking a natural event preparedness and mitigation prioritisation project, bringing together actions and recommendations from across a number of hazard related technical studies, strategies and plans, to prepare a whole-of-Island Action Plan.

To inform the development of the Action Plan, Council is undertaking three (3) rounds of community engagement. During the first round of engagement in May, we would like to hear from the community about the local values that may be at risk from natural disasters and other types of hazards.

We would like to hear your ideas of how we should mitigate these risks.
