PUBLIC HEALTH INFO: PROTECT YOURSELF FROM MOSQUITOES

With peak mosquito season approaching in South Australia, now is the time to protect yourself and your family by reducing the risk of mosquito bites.

Some mozzies can carry serious, incurable diseases, so a few simple prevention steps can make a real difference.

- Cover up by wearing long, loose, light-coloured clothing when outdoors.
- Repel mosquitoes by using insect repellent containing DEET, picaridin or PMD on all exposed skin.
- Drain standing water from around your home, as mosquitoes breed in still water.
- Protect your home with mesh screens on windows and doors, and use mosquito netting where needed.

If you develop fever, joint pain, fatigue or a rash after being bitten, see your GP.
