## Kangaroo Island Council Long-Term Financial Plan

## Executive Summary

Like all South Australian Councils, Kangaroo Island Council is required by Regulation 5 of The Local Government (Financial Management) Regulations 2011 to produce a Long Term Financial Plan (LTFP).

Outlined in the below table are the relevant Sections of the Regulations that apply.
Under s. 122 (4) (a) of the Local Government Act 1999, a Council must review its Long-Term Financial Plan as soon as practicable after adopting an Annual Business Plan for a particular financial year.

Part 2—Financial accountability
5-Long-term financial plans
(1) A long-term financial plan developed and adopted for the purposes of section 122(1a)(a) of the Act must include-
(b) a summary of proposed operating and capital investment activities presented in a manner consistent with the note in the Model Financial Statements entitled Uniform Presentation of
Finances; and
(c) estimates and target ranges adopted by the council for each year of the long-term financial plan with respect to an operating surplus ratio, a net financial liabilities ratio and an asset sustainability ratio presented in a manner consistent with the note in the Model Financial Statements entitled Financial Indicators.
(2) A long-term financial plan must be accompanied by a statement which sets out-
(a) the purpose of the long-term financial plan; and
(b) the basis on which it has been prepared; and
(c) the key conclusions which may be drawn from the estimates, proposals and other information in the plan.
(3) A statement under subregulation (2) must be expressed in plain English and must avoid unnecessary technicality and excessive detail.
Local Government (Financial Management) Regulations 2011-1.7.2013
Part 2-Financial accountability
Complying with the requirements of the Local Government Act is not the main reason for Council adopting a Long-Term Financial Plan.

As summarised below, Council has used the process of preparing the LTFP to assess the likely state of its finances over the coming 10 years and to consider ways and means of improving its outlook over the period.

## The Challenge of Financial Sustainability

Since the release of the LGA's "Rising To The Challenge: Towards Financially Sustainable Local Government in South Australia, by the Financial Sustainability Review Board, in August 2005, all Councils have been faced with the challenge of achieving, and then maintaining, a level of financial sustainability.

As the 2005 LGA Enquiry emphasised, Councils have ownership and stewardship of significant community assets in the form of roads, footpaths, stormwater drains, buildings, parks and gardens, and the like.

Even with the most advanced approaches to maintenance of those community assets, they generally have limited lives and inevitably need renewal and/or replacing.

Unless Council is providing for the future costs of the renewal and/or replacement of its essential community assets, as well as being able to meet the costs of its day to day operations, it is potentially facing a low level of sustainability, in a financial sense.

Kangaroo Island Council is no different from many other Councils, in terms of this financial challenge.

## Council's Overall Approach to the Long-Term Financial Plan

A review of Council's finances over the past decade shows that whilst Council has always been able to achieve a cash surplus, where its annual cash expenses have been less than its annual revenue, the cash surplus has been insufficient to meet the anticipated cost in years to come of replacing or renewing its assets.

This is indicated by the fact that once an amount is included for the depreciation of Council's assets into the equation, the Council has not achieved an operating surplus.

| Year Ended 30 <br> June: | $2013 / 14$ | $2012 / 13$ | $2011 / 12$ | $2010 / 11$ | $2009 / 10$ | $2008 / 09$ | $2007 / 08$ | $2006 / 07$ | $2005 / 06$ |  |

| Less |  |  |  |  |  |  |  |  |  |  |
| Depreciation $/$ <br> Amortisation | $\$ 4,368,235$ | $\$ 4,368,232$ | $\$ 4,570,143$ | $\$ 4,256,011$ | $\$ 5,011,270$ | $\$ 4,978,475$ | $\$ 4,473,941$ | $\$ 3,486,538$ | $\$ 3,219,182$ | $\$ 3,050,692$ |
| Net Operating <br> Deficit | $(\$ 3,678,326)$ | $(\$ 3,492,210)$ | $(\$ 3,390,954)$ | $(\$ 3,091,720)$ | $(\$ 2,070,763)$ | $(\$ 2,730,295)$ | $(\$ 3,362,474)$ | $(\$ 612,021)$ | $(\$ 755,658)$ | $(\$ 1,357,943)$ |

The challenge for Council is highlighted by the value ascribed to its community assets of approximately \$189 million.

Based on this, Council has aimed with its LTFP to produce increasing cash surpluses over the next ten years and, at the same time, reduce the likely future cost of asset renewal and replacement.

The Long Term Financial Plan adopted in November 2013 has been reviewed and has required adjustments to allow for changes that are both outside of Council's immediate control (as a result of the Federal Government Budget Impacts on Funding for example) and also those that are within Council's control.

In summary, the Long-Term Financial Plan does not suggest that Council will have achieved guaranteed financial sustainability by the year 2025, but will have improved its financial position along the longer term path to financial sustainability.

The basic premise of the model has not changed nor has the aim to attain financial sustainability within 10 years. The base assumptions upon which the 2014-2024 Long Term Financial Plan were formulated are identified below, these have not changed in the revised model for 2015-2025.

## Assumptions on which the Long-Term Financial Plan is Based

In assessing the assumptions upon which to base the LTFP, Council undertook a scan of the external environment, providing a context to the development of the LTFP.

The scanning process identified the following key external issues, trends and influences that potentially impact the overall Kangaroo Island environment, including:

- An increasingly ageing population compared to State average (Appendix B: ABS Tables);
- A decreasing weekly household income level compared to Sate averages ( $19.10 \%$ less that SA average);
- Outside financial pressures on ratepayers, including increases in utility costs;
- Changes to Local Government funding programs and potential risk in relation to cost shifting from the Federal and State Government to Local Government, such as the responsibility to meet the requirements of Work Health \& Safety Act SA 2012;
- The challenges ahead regarding the future direction of local government being considered in the review by the Local Excellence Panel chaired by Hon. Greg Crafter on the 'Council of the future';

A range of key internal issues have been identified, that also influence the development of the LTFP, such as:

- The development of Council's new Strategic Management Plan, and implementation processes;
- Assessment of revised funding requirements in Council's Asset Management Plans to maintain and develop Council's infrastructure.
- The capacity to fund and deliver major projects, such as the Penneshaw CWMS Project;
- Increasing focus on Safety in the Work Place.
- The ongoing commitment to maintaining existing services and reviewing service level standards;
- The impact on salary and wage costs due to continuing requirements to negotiate Enterprise Bargaining Agreements (EBA) and the impact of legislative changes, such as superannuation changes.

This has lead Council to incorporate the following specific assumptions in the preparation of the current LTFP, those being:

- General Rate Revenue increase of CPI, plus 2.0\% (Infrastructure Factor), plus 1\% Growth;
- User Charges - to move towards full cost recovery, wherever applicable;
- Employee Costs - Maintain overall employee costs to be contained within the current year costs + $5 \%$. This takes into account enterprise bargaining increases, labour market conditions, and reclassifications, plus the impact in staff costs required as a result of growth.
- Materials Increase To maintain increase of CPI - 0.5\%;
- Levels of service to be subject to a process of continual assessment and review;
- Incorporate an interest rate projection for variable loans of $4.75 \%$ in year one to three, with $5.75 \%$ for future years.

Growth refers to an increase in new housing, property development or capital improvements. Council services would similarly be expected to increase in line with growth which is forecast at $1.0 \%$.

## Inflation

An important feature of the assumptions detailed above is the expected level of the Consumer Price Index, used in several assumptions to predict forward estimates of cost movements. This is for planning purposes only, and will be reviewed/assessed on a regular basis.

A review of the economic outlook provided by the RBA in February 2015 provides the following view of future CPI movements.

Table 6.1: Output Growth and Inflation Forecasts ${ }^{(a)}$

(b) Based on current legislation for the price of carbon

Sources: ABS; RBA

The revised LTFP assumes a CPI factor of 2.7\%. A general review of the indexation rates and other cost driver rates has been under-taken based on combination of historic performance and future prediction (RBA CPI rates are predicted to be nearer $2.7 \%$ than $2.1 \%$ used in the original plan. This assumption will be reassessed regularly as updated CPI data becomes available.

The graph below shows a 'running comparison' between the historic ABS CPI data and the forward-looking estimated RBA CPI Forecast.

ABS CPI Percentage Changes 2008 - June 2016
Compared with RBA Forward Estimates

## Revised Assumptions for the 2015-2025 Long-Term Financial Plan

The LTFP adopted in November 2013 assumed that we would have finalised the position with regards to hand back of sealed road infrastructure to the Department of Planning, Transport and Infrastructure (DPTI) - this has not happened at this time. It is therefore prudent to remove this from the plan until modelling is completed and a formal decision taken to proceed or otherwise.

The Federal Government Budget in May 2014 saw the decision to discontinue the Supplementary Local Road Funding payments made to South Australia. The impact of this state-wide is over $\$ 18 \mathrm{M}$ with Council losing $\$ 178,352$ overnight. Despite protests it is not envisaged that this will be reinstated at this time. It is therefore necessary to remove this from the plan.

The same Federal Budget also saw the removal of indexation from the allocation of funds through the Financial Assistance Grants (FAG's) for the next three years. This affects the overall allocation of funds to State and Territory Governments and subsequently their distribution of these funds to Local Government through the State Grants Commission formulaic process. In real terms we have seen a $2 \%$ deflation in grant over the last few years and we anticipate that this will accelerate to a $4 \%$ deflation for the period indexation is suspended.

The Federal Government have committed to provide a "double-dose" of Roads to Recovery (R2R) in 201516 (only). This effectively provides an additional $\$ 287,500+/-$ in this year.

Given the confirmation of the anticipated project construction costs and associated subsidy for the Penneshaw CWMS project, the timing and quantum of cost has been adjusted in the plan.

The previously adopted model assumed $\$ 1 \mathrm{M}$ per annum capital expenditure and this is unlikely to be sufficient to meet the needs of basic essential infrastructure over the period - this has been adjusted to $\$ 1.5 \mathrm{~m}$ per annum.

Technically revaluations need to occur at five year intervals and the valuations required remodelling across the asset classes to reflect the likely requirements required by good financial practice. The assumption is that each revaluation will result in an increase in asset values.

A general review of the indexation rates and other cost driver rates has been under-taken based on combination of historic performance and future prediction (RBA CPI rates are predicted to be nearer 2.7\% than $2.1 \%$ used in the original plan for example; interest rates on variable rate borrowings have been assumed at $4.75 \%$ for 14-15-16-17 and then $5.75 \%$ thenceforth and for fixed rate $5.6 \%$ and then $6.6 \%$ ).

The internal review of revenue and expenditure options presented to Council in August 2014 by the CEO highlighted the potential for organic changes to revenue and expenditure through internal efficiency drives and works currently underway. This report suggested that there was the potential to grow revenue by $\$ 200,000$ pa over the next two years and then sustain that growth at a $1 \%$ inflation rate (reflecting efficiency and better cost recovery). It also identified circa $\$ 500,000$ of expenditure that could be reduced over $2 / 3$ years without impacting current service levels. Any further reduction in costs would have an inevitable impact on service levels. We have therefore built in the predicted revenue recovery and expenditure over the first two years of the plan ('15/16 and 16/17).

The LTFP model works from a compilation of the audited accounts from the previous financial year and the budget for the current financial year to which either formulaic inflator / deflator rates (drivers) and / or manual inputs are applied to drive the plan throughout the period.

## Initiatives which will Impact on the Future within the Long-Term Financial Plan

Council is committed to annual reviews of the LTFP and, particularly, the assumptions which underpin the Plan.

Recognising the significance of the value and complexity of the community assets held by Council, Council has embarked on a major effort to improve the management of its assets. The work has a number of components, each of which will impact on the LTFP in future years.

The main features of the Council's approach to asset management are:

- Conducting condition audits on the major assets so that Council can develop soundly-based maintenance programs which are more cost effective in increasing operational lives of assets;
- Identifying those assets which will be in need of significant renewal or replacement in the ten year period LTFP, and assessing whether new technologies may exist to reduce the cost of renewal or replacement;
- Identifying and assessing those assets considered to be surplus to requirements, potentially removing the responsibility of renewal or replacement without impacting on the benefit which the community receives from those assets;
- Ensuring that all maintenance regimes are efficient, minimise the potential for breakdown incidents and assist with delaying the time at which each asset needs to be renewed or replaced.

In addition, Council has resolved to pursue a review of all its levels of service, to ensure maximum efficiency and effective delivery.

## Main Features of the 2015-2025 Long-Term Financial Plan

The main features of the LTFP are as follows:

- A 'Reducing Deficit" position is targeted for Year 10 of the LTFP;
- Operational Revenue increases by $44.36 \%$ over the 10 year period of the Plan;
- Operational Expenditure increases by $31.98 \%$ over the 10 year period of the Plan;
- The provision for depreciation increases by $48.30 \%$ over the 10 year period of the Plan;
- Any revenue surpluses have been applied to reducing levels of debt;

The borrowings of Council are reduced to a level of $67.8 \%$ Net Financial Liability Ratio, down from an estimated $104.6 \%$ in 2015 . However, caution needs to be applied to this planned movement as Council's revised infrastructure assets management plans may identify assets that are in need of replacement or renewal within the 10 year period of the Plan, for which borrowings may be needed, depending on the financial position of the Council at the time.

The revised model shows that, whilst the trend is clearly now heading in the right direction the target of financial sustainability (as expressed by attaining a breakeven operational result) is not achieved. This is not surprising given the adjustments that have had to be made above to accommodate decisions made that have been outside of Council influence. There is therefore the need to create and assess alternative strategies that would enable this to happen.

## Key Ratios

In terms of key ratios and other parameters, the following table details the movement of key ratios over the 10 year period of the Long-Term Financial Plan.

| Year Ended 30 June: | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Financial Indicator Description |  | Estimate | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 | Year 7 | Year 8 | Year 9 | Year 10 |
| Operating Surplus / (Deficit) - \$'000 | $(3,678)$ | $(3,532)$ | $(3,658)$ | $(4,424)$ | $(4,246)$ | $(4,497)$ | $(4,478)$ | $(4,448)$ | $(3,558)$ | $(3,385)$ | $(3,377)$ | $(3,129)$ |
| Operating Surplus Ratio - \% | (45)\% | (42)\% | (42)\% | (48)\% | (44)\% | (44)\% | (42)\% | (40)\% | (31)\% | (28)\% | (26)\% | (23)\% |
| Net Financial Liabilities - \$'000 | 12,524 | 12,939 | 14,118 | 14,214 | 14,407 | 14,764 | 15,496 | 15,246 | 14,698 | 14,075 | 12,814 | 12,112 |
| Net Financial Liabilities Ratio - \% | 96.9\% | 104.6\% | 107.2\% | 106.7\% | 104.5\% | 103.4\% | 104.9\% | 99.8\% | 92.7\% | 85.4\% | 74.7\% | 67.8\% |
| Interest Cover Ratio - \% | 4.6\% | 4.8\% | 5.3\% | 5.2\% | 5.7\% | 5.6\% | 5.5\% | 5.6\% | 5.3\% | 5.0\% | 4.6\% | 4.0\% |
| Asset Sustainability Ratio - \% | 33\% | 17\% | 17\% | 22\% | 23\% | 23\% | 21\% | 25\% | 23\% | 30\% | 24\% | 20\% |
| Asset Consumption Ratio - \% | 73\% | 73\% | 72\% | 71\% | 69\% | 68\% | 67\% | 65\% | 64\% | 62\% | 61\% | 60\% |

The above table represents the key ratio movements over the 10 year period of the Long-Term Financial Plan.

The Key Ratios detailed in the Long-Term Financial Plan are defined as follows:

## Operating Surplus Ratio

This ratio shows the \% that the major controllable income sources varies from operating expenses. A negative ratio means a negative result or a deficit. A negative ratio indicates the percentage increase in total rates that would be required to achieve a break-even operating result.

Council's target is to achieve an Operating Surplus Ratio of $0 \%$ within 10 years.

## Net Financial Liabilities and Ratio

Net Financial Liabilities is the total liabilities (what is owed) less financial assets (cash and investments owned). Net Financial Liabilities is broader than just borrowings owed by Council. It includes items such as employee long-service leave entitlements and other amounts payable (ie Creditors) as well as taking account of Council's cash and investments.

Council's target is that the level of Net Financial Liabilities is no greater than its Annual Operating Revenue. The Net Financial Liabilities Ratio is calculated by expressing the Net Financial Liabilities as a percentage of Operating Revenue for the year.

## Interest Cover Ratio

Interest cover ratio represents the level of income used to pay interest on borrowings, it represents the extent to which Council's operating revenues are committed to meet interest expenses.

Council's target is that the level of Interest is greater than 0\% and less than $10 \%$ of Operating Revenue.

## Asset Sustainability Ratio

The Asset Sustainability Ratio usually answers the question as to whether assets are being renewed and replaced at the rate they are wearing out.

Council's target is that this ratio should be greater than $90 \%$ and less than $110 \%$ of depreciation over a rolling 3 year period.

## Asset Consumption Ratio

The Asset Consumption Ratio indicates the average proportion of 'as new condition' left in assets. This ratio seeks to highlight the aged condition of Councils physical assets

Council's target is that this ratio should be greater than $40 \%$ and less than 80 .

Note: Dashboard Targets are fixed and do not vary from year to year.

## OPERATING SURPLUS/(DEFICIT)

This ratio indicates the difference between day-to-day income and expenses for the particular financial year.

TARGET: To achieve a decreasing budget operating deficit and the achievement of an Operating Breakeven Position, or better, over a ten year period.
Target 1 - Operating Surplus greater than ( $\$ 2,500,000$ )
Target 2 - Operating Breakeven

## OPERATING SURPLUS RATIO

This ratio indicates by what percentage does the major controllable income source vary from day to day expenses.

TARGET: To achieve an Operating Surplus Ratio of $0 \%$ within 10 years

## NET FINANCIAL LIABILITIES

This ratio indicates what is owed to others less money held, invested or owed to the Authority.

TARGET: Council's level of Net Financial Liabilities is no greater than its Annual Operating Revenue and not less than zero.

## NET FINANCIAL LIABILITIES RATIO

This ratio indicates how significant the net amount owed is compared with income.

TARGET: Net Financial Liabilities Ratio is greater than zero but less than $100 \%$ of total Operating Revenue.

## INTEREST COVER RATIO

This ratio indicates how much income is used in paying interest on borrowings

TARGET: Net Interest is greater than $0 \%$ and less than $10 \%$ of Operating Revenue

## ASSET SUSTAINABILITY RATIO

This ratio indicates whether assets are being replaced at the rate they are wearing out

TARGET: Capital outlays on renewing/replacing assets net of proceeds from sale of replaced assets is greater than $90 \%$ but less than $110 \%$ of depreciation over a rolling 3 year period.

## ASSET CONSUMPTION RATIO

This ratio indicates the average proportion of 'as new condition' left in assets.

TARGET: The average proportion of 'as new condition' left in assets is greater than $40 \%$ and less than 80\%.

## Appendix C: 2015-2025 Long Term Financial Plan Assumptions

| 1 | Contributed Assets | Contributed Assets received from DPTI included at $\$ 2 \mathrm{~m}$ per year of Infrastructure Program. |
| :---: | :---: | :---: |
| 2 | Roads maintenance cost. | The maintenance cost for road infrastructure will stay at current levels until the updated Infrastructure Asset Management Plans are complete. |
| 3 | Index Drivers | Annual index increase: CPI 2.7\%, Wages 3.6\%, Growth 1\% |
| 4 | General Rates | CPI 2.7\% + 2\% Infrastructure Factor + 1\% Growth |
| 5 | CWMS Income | CPI 2.7\% increase per year |
| 6 | Waste Income | CPI 2.7\% increase per year |
| 7 | Other fees/charges (excluding <br> Development and planning fees, not set by Council) | CPI+1\% increase (3.7\%) |
| 8 | Operating Grants | An overall increase of $1 \%$ has been factored into operating grants, allowing for a net reduction of $4 \%$ to the Financial Assistance Grant revenue in years 1, and $2 \%$ from year 3. |
| 9 | Other Income | CPI 2.7\% increase per year |
| 10 | Employee cost | 3.6\% increase per year |
| 11 | Community Grants Provided | No change |
| 12 | FRWA contract | CPI 2.7\% increase |
| 13 | Major contractors and Materials | Including CPI increase, total increment assumed 2.2\% per year |
| 14 | Other materials, contractors and expenses. | Including CPI increase, total increment assumed 2.2\% per year |
| 15 | Capital Expenditure Program | From 2015-16 onwards, it is assumed to be funded entirely from borrowings. With $\$ 1.5 \mathrm{~m}$ borrowed annually. |
| 16 | Variable Interest Borrowings | Variable interest loans assumed at $4.75 \%$ per annum till year 3 then increasing to $5.75 \%$ onwards. |
| 17 | Fixed Interest Borrowings | Interest rate of 5.6\% per annum till year 3, then $6.6 \%$ per annum onwards. |
| 18 | Penneshaw CWMS Project | Penneshaw CWMS project financed by a once off capital grant of $\$ 4.110 \mathrm{~m}$ from the LGFA and a fixed credit foncier loan of $\$ 1.182 \mathrm{~m}$ borrowed over $10 y$ years at $5.6 \%$ per annum. |
| 19 | Expenses | Savings of \$250,000 have been factored into the 2016/17 year, with the following years factoring this amount at $1.4 \%$ per annum. |
| 20 | Revenue | Increased revenue of $\$ 200,000$ indexed at a rate of $1.1 \%$ per annum has been factored in from 2015-16 onwards. |
