## MULBERRY TREE PROPAGATION

A cutting from the Mulberry Tree was last week taken by a member of the Rare Fruit Society of South Australia, Mrs Penelope Schultz, on August 30th. She is the descendant of Herr Friedrich Wilhelm Kleenmann, who arrived on Kangaroo Island in 1837.

With aid from Council Parks and Gardens Coordinator, Brian Paget, a cutting was successfully taken, and we wish the RFS SA all the best with the propagation.

## CARERS SA DROP IN SESSIONS - LIBRARY

Shane Smith, the Community Coach and Connector for Kangaroo Island with Carers SA, will be in the Kingscote Library for inquiries and conversations in relation to Carers SA and the Carer Gateway on Tuesday from 11:00 am to 1:00 pm. ## PREVENT MOZZIES FROM BREEDING!

Check Rainwater tanks for gaps, check that inlet and overflow pipes are covered with insect screens.

All rainwater tank openings after 2005 must be fitted with mesh no larger than 1mm.

The only method to remove mozzies from rainwater tanks is to add chemicals. However chemicals contaminate the rainwater. The best thing you can do is seal your tank to protect your water source and prevent breeding

Other breeding sites that should be checked are:

- Tyres
- Swimming pools
- Garbage bins & recycling bins
- Clogged gutters & runoff
- Swing sets and toys
- Oil drums & buckets
- Novelties & ornaments
- Boats & kayaks
