

## CAMPING ON KANGAROO ISLAND

Are you planning a camping trip on KI this summer?

On days rated "Catastrophic" during bushfire season all campgrounds managed by the Kangaroo Island Council and the National Parks Wildlife Service will be CLOSED.

Please note that camping is not permitted on beaches to protect our environment and our wildlife. We ask that you help us keep our beautiful island pristine by cleaning up and taking rubbish when you leave.

You must purchase and display camping permits which can be purchased at pay stations on-site.

For more information about camping on KI, visit:

<https://www.tourkangarooisland.com.au/stories/essential-kangaroo-island-camping-and-caravan-tips>

## FRWA AUSTRALIA DAY CLOSURE

KI Resource Recovery Centre (KIRRC) will be closed on Australia Day, **26 January 2023**.

KIRRC (or the dump) is located on 1207 North Coast Road, 5kms from Kingscote, telephone **8555 7407**

Summer kerbside waste collections will continue as normal over this period.

Green and yellow bins will be collected every week. General waste is collected every fortnight.

Please check FRWA's calendar or the website for details. [www.fleurieuregionalwasteauthority.com.au](http://www.fleurieuregionalwasteauthority.com.au)

### 2023 Council Meetings

Council meets on the second Tuesday of each month at 10:00am (except for January, being the third Tuesday of the month):

**17 January 2023 | 14 February 2023 | 14 March 2023**

## TOWN CENTRES UPDATE

### Penneshaw: Request For Quotation - Limestone retaining wall construction

Kangaroo Island Council is seeking quotations from LOCAL stonemasons to construct a limestone retaining wall in Middle Terrace, Penneshaw, as part of the Town Centres Project.

About the wall:

- 75m total length (refer to photos attached for location)
- Height typically 750mm tapering to 300mm at both ends
- Adjacent to new clay paved footpath (footpath can be closed while work is being undertaken, but the site must be left safe when not on the worksite). Footpath to be protected by ply sheets or similar to limit damage to new pavers.
- Brighton lime mortar (or similar equivalent) to be used, with a 1m sample to be provided and approved by the Council prior to completing the remainder of the wall
- The existing permapine retaining wall has already been removed and the slope has been excavated ready for installation
- Limestone already located on site can be used if deemed suitable, the contractor is responsible for supplying the limestone. It is expected that the stone will be sourced from the island

Proposed wall location: existing conditions

### Methodologies

Two stonewall methodologies will be considered by Council. Contractors can price either one or both types:

Wall Type A:

Dry stacked limestone wall with mortared cap and suitable layback, small stones to conceal gaps fixed with mortar (base preparation has been completed by another contractor), drainage behind and backfilling, with AGI pipe and geofabric.

Wall Type B:

Concrete block wall with limestone facing, concrete footing, damp proof membrane, backfill with drainage, mortared joints not to exceed ~20mm.

Proposed wall location: plan

Contractor prerequisites include:

- \$20m public liability insurance
- ABN registration
- Willingness to comply with Council's safe work practices and standards
- Demonstration of examples of other stonework (preferably on Kangaroo Island)
- Availability to commence in early 2023

### How to submit your RFQ:

Pricing and supporting information/details are to be submitted by **12pm Monday 16 January 2023** to [louise.custance@kicouncil.sa.gov.au](mailto:louise.custance@kicouncil.sa.gov.au)

## Parndana

Council is currently coordinating contractors and works are due to commence in the coming month. Details about the Parndana Town Centres project can be found on the Council website [www.kangarooislandcouncil.sa.gov.au](http://www.kangarooislandcouncil.sa.gov.au).
