WORKS AND INFRASTRUCTURE

Fresh Upgrades at the Kingscote Tidal Pool

Work is well underway to revitalise the much-loved Kingscote Tidal Pool in time for the July school holidays. The old shade shelters have now been removed, with brand-new shelters on site and ready for installation. Replacement of the pontoon ladders is also scheduled for completion within the next fortnight, ensuring safer and more accessible swimming this season.

American River Cemetery - Fence Renewal Progress

Restoration works are progressing at the American River Cemetery, where the deteriorating perimeter fence is being replaced. The contractor is currently removing the old fencing and preparing the site for the new post and three-rail design.

The project remains on track for completion by mid-July, supporting respectful upkeep of this important community space.
