## PUBLIC NOTICE

### NBN Upgrade Work – Kingscote Civic Office

Please be advised that upgrade work on the Telstra communications tower beside the Kangaroo Island Council Kingscote Office will be conducted from 18 November to 14 December.

On select days during this period, equipment removal and installation will require an exclusion zone to be set up. This will restrict access to the building entrance on the southwest side and block access to the adjacent carpark. Appropriate signage will be in place to advise the community of these temporary changes.

We appreciate the community's understanding and apologise for any inconvenience this may cause. For further information, please contact the Kangaroo Island Council.

**Thank you for your cooperation during this important infrastructure upgrade.**

## COMMUNITY CONSULTATION

### Have Your Say: Proposed Dog Park in Brownlow Parklands

Kangaroo Island could soon have its first dedicated dog park, and we want to hear what you think!

At its November meeting, Kangaroo Island Council resolved to undertake 21 days of public consultation on a proposal to create an enclosed dog park at Brownlow

## COMMUNITY CONSULTATION

Parklands. This project aims to provide a space for dogs to socialise and exercise.

The Council values your input and encourages all residents to share their thoughts on the proposal.

## WORKS & INFRASTRUCTURE UPDATE

### Gosse - Snug Cove Road Maintenance and Upgrades

The Kangaroo Island Council is on track to complete maintenance and improvement works on Snug Cove Road, Gosse. The project, which commenced on 19 November, is expected to conclude on schedule by 12 December 2024, barring any unforeseen delays.

### Project Overview:

- Location: Snug Cove Road – From Colemans Road to Flinders Way.

The works cover a 2-kilometre stretch, with specific segments ranging from 100m to 500m re-sheeted. Culvert extensions have also been installed where required to enhance stormwater management.

### Ongoing Benefits

These upgrades aim to improve road safety and durability by addressing areas of the unsealed road that required attention. The extended stormwater infrastructure will reduce the risk of flooding and surface degradation during heavy rainfall.

### Traffic Considerations

Traffic controls and speed restrictions have been in place throughout the project. Motorists are reminded to drive cautiously in the area until the works are fully completed and inspected.
