Kangaroo Island Pioneers Association

Kingscote National Trust / Hope Cottage Museum

Kangaroo Island Council

WORKS AND INFRASTRUCTURE

Council continues to invest in the renewal and maintenance of key community assets across the Island. The following works are part of our commitment to providing safe, reliable and well-maintained public infrastructure.

Boat Ramps and Jetties – Maintenance Program

Council's scheduled maintenance program for marine infrastructure is nearing completion. Works are expected to be finalised by early next week, subject to weather conditions and final inspections.

This round of works has focused on renewing, rather than expanding, existing infrastructure to ensure safer and more reliable access to the coast and surrounding seas.

WORKS AND INFRASTRUCTURE

Maintenance and renewal activities have taken place at the following sites:

- Emu Bay Boat Ramp
- Bay of Shoals Boat Ramp
- American River Boat Ramp
- Christmas Cove Boat Ramp

Council thanks the community for their continued patience while these important works are delivered.

American River Cemetery – Fence Renewal Complete

Renewal works to replace the perimeter fencing at American River Cemetery have been successfully completed ahead of schedule.

Council extends its thanks to contractor SS Contracting (Jack and Dylan) for their efficient work in preserving and protecting this valued community site.

Kingscote Tidal Pool – Shade Shelter Renewal

Progress continues on the renewal of shade shelters at the Kingscote Tidal Pool, with works scheduled for completion by early next week. Weekend activity may occur to ensure timely delivery.

The adjacent pavilion remains open and accessible throughout the project. This upgrade is part of Council's broader open space asset renewal program.
