-) Council have inspected 4 townships, identified key areas, within budgetary allocations and attended a 2 day blitz in Penneshaw. This is only the first step, with a plan to be developed for 2x staff one day per fortnight over the next year, to continue with this programmed approach.

-) We are developing this process and approach to lift the standard of the township, and then continue with a more programmed approach.

-) Suggest having a standing item on your progress associations' meetings to discuss road safety.
